

# Introducing

## BR Series Metal Indicator Light

**12 / 16 / 19 / 22 mm mounting holes, a variety of voltages, LED color options, and fixed or flashing lights.**

# BR Series Indicators

## Features

- Threaded stainless steel Metal Housing
- Voltage Rating: 5VDC - 110VAC
- Stamped Legends available
- Flashing and Fixed LED's
- Provides protection against the environment, vibration and shock
  - Hex nut and silicone seal
  - Terminations are epoxy sealed
    - Wire leads or faston

## Technical Characteristics

- Rating 20mA250 VDC
- Operating temperature -40 C to ~+70 C
- Nut Torque 2~14Nm
- Life expectancy 100,000 hours
- Meets ROHS requirements
- IP68 and IK10 rating
  - IK is resistance level on electrical enclosure against mechanical impact
